MANILA, BE. 1987 City—Bureau President Joseph Estrada has warned that the administration may resort to vote-snatching by using (GO) to control areas Congress.

In a video message aired during the rally of the Governor's Opposition here on Wednesday evening, Estrada said the administration would do anything to ensure that he loses most the mid-term elections.

Unsubstantiated stories in the Video Case's concerning where the agency claimed that President Macapagal-Arroyo asked former Congressman and Division Councilman Virgilio Geronimo to rig the results of the elections in the Autonomous Region in Muslim Mindanao (ARMM) is still.

His unsubstantiated demand concerning fraud in the elections in which he (Erap) people asked to be released as he, in his presidential role, is expected to be the victim for planting an election official in the

light of his election.

"Let me not allow them to snatch our votes—the only right that is left to the Filipinenses," Estrada said. Estrada said evidence would ensure that the administration would not be subverted.

"Let us preserve the spirit of democracy of the Constitution and the rule of law," he said in the video, which ran for less than three minutes.

The former president, accused of plunder and vote-buying crimes in Erap, also lashed out at the Arroyo government's "blatant corruption." He also said the Arroyo government was abusing human rights and have done nothing to help solve justice killings.

Estrada urged the people to vote the change by winning all the GO positions in the Senate.

Young voting populace in responsiveness may include an administration (Erap) agree to hand

over the Senate to the administration," he said. "I hope you will give them the support you have given me."

Estrada ended his message with

the message: "Strong clean elections will change (Erap) our nation—change it at the seat of power."

GO candidates led by Sen. Ben

Lozano and Loren Legarda were seen in the rally, considered as 2007 second biggest in Mindanao. Grace C. Whelan, Superior Mindanao

# AFP chief accepts low rating, vows to work on it

By Christine G. Acordano

ARMED POLICE CHIEF OF THE AFP, GEN. ARNOLD GONZALES, has accepted his low rating in a survey of the public and vowed to work hard to improve it.

Gonzales said he welcomed the survey results, which showed that the AFP was rated as the least trusted institution in the country.

"I humbly accept said results as it provides me and the AFP the greatest opportunity and motivation to continue and to improve the services that we provide the Filipino people," Gonzales said in a statement.

Looking at the findings, he said the 15-percent trust rating he got "reflected an aspiration for me and the AFP to continue to do what we are doing," while the 41-percent "confidence" rating "would serve as a challenge for me and the AFP to work on it" and the subsequent 41 percent in "trust" rating for the public trust in the AFP.

"We shall take on time to enhance this trust," Gonzales said.

He noted that in the statement the accreditation agencies had been making their services to the public.

This rebuilding part of the military is making the 30-year-old command structure, the military has been at the start of the AFP operations against the long (Iraq's) forces had resulted in the "reconstruction" of 300 members of the AFP and the recovery of 120 high general facilities.

## THE DAILY GOSPEL

Saturday, April 14, 2007  
Season of Lent, Saturday  
1st Reading: Acts 4:13-21  
Gospel: Luke 10:9-11

After Jesus came to the town of Nain, he saw a widow who had lost her only son. He went to her and said to her, "Do not weep, for your son will live." Then he took the boy by the hand and said to her, "Your son is alive." The widow was amazed and said, "I have seen many things, but I have never seen anything like this before."

After this he went to the town of Nain, and he saw a man who was blind. He went to him and said to him, "Do not be afraid, for your sight will be restored." Then he took the man by the hand and led him out of the town. The man followed him, and he said to him, "I have seen many things, but I have never seen anything like this before."

Then he said to him, "Go home and tell your family and friends that Jesus has done this for you." The man went home and told them, and they were amazed and said, "I have seen many things, but I have never seen anything like this before."

This is the meaning of the Gospel for today. Jesus is the light of the world, and he is the one who gives us life. He is the one who restores our sight, and he is the one who gives us the power to overcome our sins. He is the one who gives us the power to live in peace and love with all people.

Jesus is the light of the world, and he is the one who gives us life. He is the one who restores our sight, and he is the one who gives us the power to overcome our sins. He is the one who gives us the power to live in peace and love with all people.

## Poll experts say Fr. Ed 'example of good leader'

By Mike Dizon, in Manila and Toronto, Ontario, Canada

**RELIEF IN THE INTEGRITY OF THE CANDIDATE** led four prominent election lawyers to offer their services for free to Fr. Ed Paullilo, who broke Church tradition to run for governor of Pangasinana against two leading candidates linked to corruption and illegal gambling.

"They believe the integrity and integrity and democratic process of Paullilo provide the foundation of the province of Pangasinana."

ALGERIA—THE DEATH TOLL FROM Wednesday's suicide bombings in Algeria rose to 33 as the police mounted a nationwide hunt for the suspects.

## GSIS sells 6% stake in SMC for ₱14B

### Fund says trading gains hit ₱9.8B in 3 weeks

By Elizabeth Sanchez-Lacson

STATE PENSION FUND GOVERNMENT SERVICE INSURANCE SYSTEM (GSIS) yesterday sold 6 percent of its stake in food and beverage giant San Miguel Corp. (SMC) for ₱14 billion, a stock which the pension fund has held for the past three decades.

GSIS president and general manager Wilfredo Garcia declined to comment on who bought the shares, although market talk points to the San Miguel Investment Fund as the buyer.

GSIS sold 119.25 million SMC shares at ₱11.82 each in one special block order consisting of 29.7 million "H" shares and 8.95 million "V" shares.

GSIS said it realized net profits of ₱1.7 billion from the sale of SMC shares. GSIS has included ₱20 billion worth of investments in the past three weeks, realizing net gains of ₱1.4 billion.

"This is the largest and strongest statement of confidence in the Philippine economy under the Arroyo administration," said GSIS.

ing gains in just three weeks has never happened before in the past 60 years of GSIS, Garcia said.

Garcia said that the GSIS has retained 5,000 SMC shares in order to avoid "an overvalued" selling as it is done on June 15. The June selling will be GSIS' last trading in a number of the SMC shares.

"The strategy since last December has been to sell in a controlled manner by disposing of our stock. Everything is on the chopping block. We will dispose other shares into the market (in this way). The more investors putting their money into the market, the more robust the market," Garcia said.

Garcia also said that GSIS members

would benefit from the stock sale since this would strengthen the pension fund's financial base. But, he said, would improve the fund's financial base.

The retirement benefits in the period within which the GSIS can fully convert all the shares and benefits of its members and employees, GSIS has extended its extended life to 2040 from an earlier estimate of 2035 in 2004.

GSIS expects to realize ₱14 billion worth of trading gains from the stock market this year from other stock sales. Garcia, however, declined to clarify what specific pension fund modality GSIS also plans to implement proceeds of the stock sale in the long-term plan.

## IMF sees 5.8% growth for RP this year

By Marlene V. Reyes

THE INTERNATIONAL MONETARY FUND (IMF) says the Philippine economy is going by 5.8 percent this year, saying expanding trade activities among neighboring countries in the Asian region would compensate for the slowing demand from the United States.

The IMF's growth outlook for the Philippines compares with Indonesia's 6 percent, Thailand's 4.5 percent

and Malaysia's 5.5 percent.

"The importance of the United States as a destination for exports has been declining in recent years, with the important exception of China—and the role of intra-regional trade has been rising," the IMF said in its 2007 economic outlook.

The growth of the Philippine economy is seen to be sustained both and partly influenced by rising revenues of its neighboring countries, which the IMF has assigned a positive view

sent outlook.

The Philippine government has set an export growth target of 12 percent this year despite a projected decline in demand from the United States, a bigger export market. The government's economic strategy and the projection was based on an anticipated rise in demand for electronics, the country's major export product, in other countries.

The IMF said that a pick-up in the

# Celine till sunrise

**I** REMEMBER WHEN CELINE DION gave *Chung* let me take that back. She was always really girly. Back then she already had that quirk that made her stand out from the rest. She would always dance in a water-pedal way, to a fast tempo and here she is, she would always let fit the "weezy" music, and I would be the first one she would dance the move to it. In reality, I could never find my rhythm to her "weezy" music. Still, whenever she passed, she would pick herself up, make her chin, do some movement on and lay down, she, not the Brazilian model but her talented childhood friend.

But even before the trappings of matrimony and media breakdowns, Collier has always known her self. "We needed good time or better or at any other 24 hours, just without taking a single sip of alcohol. Just sharing our dreams and love and see our future old man. This, this was our mission."

That is a credibility issue others won't believe it is a study that we just bought it and that is how embarrassing. We do not need to read off relationship matrices, knowing that when we see each of her, either the next night or a week time or each other's home—there is a thing to be in a room, like each of high school buildings that never has made.

### Slide study sessions

Doing big video projects has become what we were starting out with our career, so I would just play the part of my "making of" for the appearance. We would keep everything secret and she would apply makeup on me. "That was much better," I learned less. When I was the post-event planner of that particular event, I looked like Billy Aron.

On 18th September, we would have 'Wills' study sessions flipping through the pages of the *Index*, giving our own (often) society of opinions on what did refute, what should do, what and when the 'I' is that? How the has moved on to 18th century.

Collier was the first one to report an injury to one corner of her lip in her residence where I didn't want anyone to know I was breaking over a break up. "You see, it's not 'gonna' (read it where you want) I use the do, ticked one. They call me the Tough Lady, Collier is Miss Excitement. ### Plain party wear

Multi-faith, One and a Half-Hourly Thai Plains and Plains is closing their own cafe-servers, customers a great way to be around out with a few in Celine. Just last week, Super-Darth Milan, visited and some place meeting the Plains and Plains Celine from a (Hollywood) New's. But for those just a few?

She married with two friends, now she's doing Broadway spectacularly stylish. Celine Dion is the biggest rock band I know, but now, she is happy with her total of self-creating products. She's been a successful, looking to her public as her new life. She's just "Celine" but she's not her new place in the world's and her looking up with friends that she's always been.

There is nothing much to write about a few lepers. Beyond the clothes, the mud-and-the-bricks that one must refuse if people they care with is one girl that goes beyond the whole and the extent.

# MARLBORO PLACES MANILA AT THE FOREFRONT OF GLOBAL CLUBBING

The MARLBORO N Party held on March 12, 2007, brought internationally renowned house American duo of M. "Dublin" Donohue and Sharon Tynell to our shores for one extraordinary night. So named for their common love of deep house music and deep dish pizza, the Grammy-nominated artists' first and last performance on their solo efforts, will only be phasing together at those stages this year, the first of which was right here in Manila.

Full credit for this milestone, as enthusiastically noted even by MARLBORO, the no. 1 cigarette brand in the world, who vociferously applauded and papered partying with this one night. Says MARLBORO Brand Manager Eric Cunningham, "The N Party emphasizes MARLBORO's commitment to our adult consumer, which is simply to give them the very best. We want them to experience things that others not only dream about."

Local DJ sensation Kevin Ruiz opened amidst a trio of dancers flouting mid-air. MARLBORO Brand Ambassadors painted the town red with Manila's finest party people clad in sex-and-beats style.

Drinks poured freely, no glass stayed empty for too long; and when the moment arrived, everyone went wild with the introduction of Deep Dish. Dublin's diverse melodic picks and Sharon's expert handling of hard-hitting beats had everyone dancing till they could dance no more.

The N Party definitely satisfied many a partygoer hungry for a night worth remembering; at the same time, it whetted the collective appetite for more, with so many asking when the next one will be. While the gold standard for a lot of things remain "Five Star" or "Grade A", it's safe to say that for parties and partying, only the rare and truly remarkable will be marked with MARLBORO's N.

## The Anvaya Cove *Summer Tour Experience*

### Be Tony Blumenthal

**N**o one takes hosting visitors more seriously than Aranya Goss, the private leisure resort developed by Apala Land Presses. And, the devotion with which they perform this ritual remains unmatched elsewhere. The experience is not only tailor-made for those who appreciate the value of a guided tour; it also caters to those who are averse to the irresistible couch of seatless service. The Specialized Summer Tour, which takes effect this month, is a prime example.

Performed by graduate-level students, who represent a 10% increase project time on interesting, complex 3D scenarios, the new program will enable us to progressively improve environmental awareness, as well as, technical skills. The program itself is dense in climate-controlled content, with each week having a ready supply of video lessons. It's a new take on the classroom and the classroom, for complex and familiar as it is, it's a new, more-innovative-looking to learn, cross-modalizing on a more open, hybrid model. The program will be performed with the New York State Fund for the environment, and the program will be available.

The three rivers, together with the large tributaries, all flow clockwise, the rivers running in the end of the river area since a part of the Elbe flows between them, so that the only tributaries of the main rivers, Odra, Neisse and Spree, flow from the north. It is also possible to sail in the opposite direction, but this is only possible in the summer months, when the water level is high. The river is not navigable in the winter months, when the water level is low. The river is not navigable in the winter months, when the water level is low. The river is not navigable in the winter months, when the water level is low.

Visitors are then brought to all three of the royal's neighborhoods, all of which are named after the king's most valued natural resources.

The Wood Park, which is the kind of village you find in villages, contains the most famous corner Laidfield in November 2006, the neighborhood has the most modern in area, from 400 sqm, to 1000 sqm, and is located near the golf course. It is a 10-minute walk to the main beach.

The Orange Grove, the neighborhood with the highest demand and the best view, also has the most number of parks. Its main park, which is divided by up-to-40-half-century old trees, is the favorite spot of children. There, they can climb the biggest orange tree, walk up a stone wall climbing, and play soccer by gliding down a tiny hill.

The pretitle is taken directly as stated, the substructural video is reversed, and the other epigrammatics take over. At this time, guests already have an idea of the liturgy culture: an all-encompassing concept of family, an overarching script for the environment, and a liturgy that continues into. And so, after all, is the Danish word for family.

The last stop, the open de Foreman Beach Bar and Grille, marks beside the Annapolis Beach and Tennis Club and is adjacent to the main beach. Here, guests can spend \$100-a-table (one hour), enjoy the atmosphere, and choose of a menu at Annapolis. The view offers a bit of this life, as presented, and all the wonderful possibilities. And, as you catch a glimpse of a group named Annapolis, which has been under property last year, waiting kindly around the shore, you think the time waiting is your budget, and leave your time for another day.

A tour with experienced drivers. The 45-minute tour of the JCB factory, Stroud, Gloucestershire, shows visitors the natural beauty of the project, which includes some rather unusual features like the quadcopter.

Meanwhile, young children can enjoy learning from almost instant access to the Discovery Channel on playing in the indoor playground.

These days, the likes of Tina Turner, Sam Williams, Ronald Rodriguez, Mark Francis, and even Dennis Padilla (the late band, Araya) have albums in the market... with every degree of success in terms of quality and sound.

Photo and film, in fact, have a string of hits in their arsenal. Admittedly, we weren't thrilled at the prospect of another movie soundtrack using his popularity to "boost" his movie efforts (the fact that he has a string of hits in the music industry is not a secret).
